

Purpose of the Query:

At the end of each fiscal year, agencies need to ensure that no requisitions are still sitting in a open/pending status. Agencies can see this information on-line by navigating to the eProcurement > Manage Requisitions page and filter by the “Request Status”:

This filters on the Requisition header status and will produce an on-line listing of all the Requisitions for your Business Unit that has the selected Requisition header status.

The on-line search will not identify all requisitions that have not sourced to a PO. For example, if a Requisition has four (4) lines but only one (1) of the four (4) lines successfully sources to a PO the Requisition header status changes to “PO Dispatched” even though there are three (3) requisition lines that have not sourced to a PO and need some kind of attention to move forward. In this case, the requisition more than likely can be found on the Sourcing Workbench.

Furthermore, this particular page does not allow users to export the results to an excel document.

Query parameters:

- **Budget Date** is less than the budget date entered
- **Requisition Header Status** is in the following list: Initial, Line Approved, Open, Pending or Preview. [Status’ not included are: Approved, Complete, Denied, Cancelled]
- **Requisition Line Status** is in the following list: Hold, Open or Pending Approval. [Status’ not included are: Approved, Closed, Denied, Canceled.]
